Friends of Jacob's Reward Farm are raising money to purchase two flocks of sheep for needy families in third world countries, through the programs of World Vision.

World Vision® *Building a better world for children*

One flock of 5 sheep costs $525, and two flocks cost $1050. The gift of sheep for a needy family will provide them with milk, wool, and an ongoing source of income to purchase other necessary items for their family life.

World Vision is a highly rated humanitarian organization that has been meeting the needs of impoverished people around the globe for over 50 years. Their record is impeccable.

All donors who give $20 or more will receive a special Jacob's Reward Farm Water Bottle. This bright green bottle will help keep excessive plastic out of our landfills by making purchased bottled water obsolete. It sports the JRF logo to tell everyone you're a friend of the Farm!

Thank you so much for helping a needy family receive the gifts of self sufficiency, warmth, nutrition, and hope for a better future.
